Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A07146.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on November 3, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 310 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 54 items when rounded up to the next whole number (d).

	Population Size	Percentage of Total	Calculated Sample Size	Predetermined List Sample Size
	(a)	(b)	(c)	(d)
ICU Decals	140	45.16%	23.48	24
Telecommunications	100	32.26%	16.78	17
Fleet	13	4.19%	2.18	3
Weapons	57	18.39%	9.56	10
Total	310			54

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 48 of the 54 items were located. Five items had been transferred to other commands and one item (Scanner) was previously reporting as missing. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

Safety, Service, and Security

January 8, 2010

When comparing equipment assigned to the command to the OPI inventory lists, 67 of the 75 items reconciled. Two items were not listed on the appropriate OPI inventory lists and six items require a correction be made to the property record. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by April 8, 2010.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.
